The other Directories in the business field include: a Directory of Management Faculty, a Directory of Finance Faculty, a Directory of Marketing Faculty, a Directory of Economics Faculty, a Directory of Business Law Faculty, and a Directory of Hospitality Faculty. An Engineering Faculty Directory was published in 1992 and 1995. A Computer Science Faculty Directory was published in 1994 and 1996. The Nursing Faculty Directory was published in January 1995.

The American Accounting Association awarded Jim Hasselback the Outstanding Service Award in 2005. He is only the eighth person to receive this award.

Dr. Hasselback taught two courses, Income Tax Planning and Estate Planning, in Florida State University's Certificate in Financial Planning Program through the internet for six years. This is the eighth MARKETING FACULTY DIRECTORY. The Directory includes a listing of the Dean, Department Chairperson, and full-time Marketing Faculty from over 800 schools. It is compiled from information provided by the respective schools. Typically three requests were sent to any school not responding. Only that information received by May 12, 2007, is included in the Directory. It is becoming more difficult to obtain responses from schools.

The Directory covers the academic year 2007-2008. United States schools are followed by Canadian and then other foreign schools in the school listing.

The first line for each school includes the area code followed by the department fax number. The years in the right-hand column are the AACSB Bachelors and Masters accreditation dates. The school's e-mail address is included in the second line followed by the programs and degrees offered by the school. The third line includes the department phone number, street address, and department secretary/administrative assistant.

The columns are as follows:

Name Rank School-Phone Bitnet Teaching Research Degree Start  
\$ next to a Dean or Chairman indicates "Acting"

For the Chairman, the title and rank are:

C	Chairman	D	Director	H	Head
Pr	Professor	Ac	Associate	As	Assistant

The electronic-mail column includes the individual's address. The individual address must be combined with the school's electronic-mail address; for instance, [jhassel@cob.fsu.edu](mailto:jhassel@cob.fsu.edu). When an individual address includes an "@", that individual has a different school address from the school address listed in the first line of the school; the individual's complete electronic-mail address is included in the electronic-mail column. However, if an individual electronic-mail address ends with a "." then the school's address must be added to the individual address provided. A + in a persons e-mail indicates a name too long to fit in the column. @a stands for aol.com; @h stands for hotmail.com.

The degree column represents the highest earned degree or "all but dissertation," date received, and school.

The start column is for the month/year of beginning employment at that school.

The teaching and research columns are as follows:

Any mistakes in the Directory are my responsibility. However, some of the misinformation belongs to schools not providing complete information.

Any corrections, additional information, and new schools should be sent directly to me. If your school is not included, send me your listing in a format similar to that in the Directory.
